Department Reports

Garret Press – Public Works

- Discussed the various projects that Public Works is currently working on. Presented several bids for equipment and materials that would further improve development in his department.
- Jeremy explained to the Council that he made the final decision on buying the wheel saw for the city. Another town was going to take it if we didn't. With the current cement cutter, we spend roughly \$1500 a year on new blades for it. This new saw will not have that expense.
